

FEATURED PROJECT

*Kangaroo Valley (NSW)
RMS Civil Works*

“TechBoard worked well and the local RMS (Roads Maritime & Services) guys worked up on these at night in **cold wet** conditions and **the grip was awesome** they were not slippery at all. “

Clinton Mauger - (Managing Director)

Pipeline Rigging and Scaffolding)

TechBoard used on a heritage site in Kangaroo Valley with standard tube and clip, with board retaining fittings and putlogs to secure the planks.

With an **underfoot grip 60% higher** than AS/NZS 1577:2013 requirements the TechBoard planks are the safer alternative in hazardous conditions.
